CSCE 5250.001 Fall 2010: Parberry

Respondents: 0, OEM: 0, LE: 0, SRL: 0, OVERALL: 0

Student Comment 1

Course Content: I might have been helpful to focus more on how to use subversion and general version control practices. I could see where many students would not know about this.

Instructor: It was very helpful to have all the lecture materials online as well as the demo programs.

Course Structure: It would have been helpful I think to have more checkpoints for the final game project earlier on.

Own Performance: Started work on final project earlier. More communication with team members early on.

Student Comment 2

Exams: N/A

Instructor: cool dude

Course Structure: great environment for collaboration and learning to work in a team
